List of Reviewers - Brazilian Review of Finance - RBFin

A good quality scientific publication depends on the engagement of qualified academics. The editors of RBFin would like to thank the 45 individuals below who concluded voluntary evaluations of articles in 2014. Five of them are associated to universities outside Brazil. Reviewers perform one review per year, with the exception of follow-up reviews of the same article. We show the number of papers reviewed in parenthesis to recognize those who gracefully exceeded this limit.
